MENTAL HEALTH RIGHTS COALITION

Voices of Experience

Empowering the voice of consumers on boards & committees

A project of
Mental Health Rights
Coalition

www.mentalhealthrights.ca

We Provide The Training, You Provide the Voice

Voices of Experience

Voices of Experience began as a joint project of Mental Health Rights Coalition and Good Shepherd.

The purpose of the project is to increase the level of consumer input in the Mental Health, Addictions and other social service agencies which serve them. At the same time the project is aimed at helping the agencies adjust to consumer involvement and realize their full potential by including the consumer voice.

How It Works

Potential participants will receive 18 hours of training course to prepare them to sit on Boards or Steering Committees within the community.

Once placed on a Board of Directors or Steering Committee, agencies are asked to provide a \$15 honorarium/expense fee per meeting to the consumer members.

Benefits

The act of becoming involved and working toward change leads to renewed self respect and a sense of empowerment. The knowledge that you really can make a difference, not only in your own life, but in the lives of others, is invaluable.

In a survey by the District Health Council, agencies reported a significant gain from having consumers involved.

They gave examples of increased staff knowledge, better communication and a higher level of consumer comfort.

Many agencies stated the personal experience of consumers helped them become more effective and better able to meet the needs of their clients.

Participants will receive an 18 hour training course where they learn the basics of being a member of a Board of Directors or a Steering Committee, Robert's Rules of Order, Board of Directors and Steering Committee responsibilities, and the structure of Boards and Committees
