

Suicide Prevention Community Council of Hamilton

A comprehensive, coordinated and integrated suicide intervention training program, ASIST is research based and reflects current best practice in suicide intervention. It is the result of more than 20 years of research and development and is the most widely used suicide intervention program in the world.

ASIST

Applied Suicide Intervention Skills Training

This **two day** (15 hours) LivingWorks training provides practical suicide first-aid training for all types of caregivers. Learn how to recognize opportunities to help, assess risk of suicide, apply a suicide intervention model and practice skills. For more information visit: www.livingworks.net/AS.php
